

**JON HUBER / Aspiring Software Engineer**

**www.huberrrr.com**

**jon@huberrrr.com**

**661 310 4788**

## **EXPERIENCE**

### **IBM / Full Stack Developer Intern**

**May 2019 – Current**

- > Worked on the Watson Knowledge Catalog UI team to contribute new production-level components to the React frontend and build new APIs for the backend-for-frontend
- > Fixed 46 broken Jest unit test cases to help identify software problems and ensure product functionality

### **Hello World / Mentor**

**September 2019**

- > Volunteered as a mentor for the Purdue Hello World hackathon and guided freshmen through their first hackathon projects

### **Pulse Voter / Software Engineering Intern**

**May 2018 – August 2018**

- > Integrated a REST API, advanced data export, interactive map of voters, bill statistics, and constituent profiles
- > Established a website for internal use to streamline large SQL data input and manipulation as a side project

## **PROJECTS**

### **Halo Wars 2 Discord Stats Bot / Personal Project**

**JavaScript, Node.js, Google Cloud Platform**

- > Independently built a chat server bot that accesses the Halo API to give players their statistics for the game Halo Wars 2
- > Maintained an average of 1000 active users in 10 communities

### **Programmers of Catan / IBM Hackathon Project**

**JavaScript, React Native, Python, Flask, IBM Cloud**

- > Developed an application that utilizes computer vision to suggest the most optimal opening move in the board game Catan
- > Acted as team leader, created the frontend in React Native, and integrated backend algorithms with the frontend

### **DateNight / Software Testing Class Project**

**JavaScript, React, Node.js, SQL, Google Cloud Platform**

- > Conceptualized, planned, and implemented a date search engine using React and Node.js in a Scrum-based team
- > Took on the role of team leader, enforced Scrum methodologies, and gained experience by creating the frontend

## **OBJECTIVE**

**Junior** studying **computer science** with a specialization in **software engineering** looking for an **internship**, where he can apply his experience in **React** or **backend development**

## **EDUCATION**

### **Purdue University / May 2021**

3.67/4.00 GPA – Dean's List

B.S. in Computer Science with a focus on Software Engineering

Certificate in Entrepreneurship

### **Relevant Coursework**

Information Systems

Software Testing

Systems Programming

Software Engineering

Web Application Development

Computer Architecture

Data Structures and Algorithms

## **SKILLS**

### **Languages / Ranked by Preference**

JavaScript (React, React Native, Node.js)

TypeScript

Java

Python

C++

Ruby (Ruby on Rails)

SQL

### **Development Tools**

Git

Google Cloud Platform

Amazon Web Services

Docker

Kubernetes
